

# TRANSFER BUDGET FOR STRENGTHENING INNOVATION AND SUSTAINABLE DEVELOPMENT

A maximum of 15% of the budget for direct payments in Pillar 1 can be transferred to rural development policies in Pillar 2. Use this option for improving innovation and sustainability at farm level. Create a National Fund for Innovation and Sustainability. Remove budgetary constraints and other obstacles for a successful process of innovation by enabling knowledge sharing and strengthening fruitful schemes. Make use of larger as well as smaller dynamic collective initiatives (e.g. Practice Based Learning).
